

## DIY-2

12 nov 23

1. Get family details and print it atleast 5 columns

**same as this**

```
a=input("enter your name")
b=input("enter you age")
c=input("enter your birthday")
print("My Name is ",a)
print("My Age is ",b)
print("My DOB is ",c)
```

2. Attendance for 5 students
3. Print six season with using if , elif condition
4. Sum 5 number

DIY (Do it yourself)Thanks
